

Airborne Sampling/Sensing of Distal Volcanic Ash

Introduction

This is the size of the font to be writing with (36). It should be fine with 24 font. The font size for the Headers is 48? The text box outlines are only there to show relative size. Should get rid of it.

Problem Statement

Testing

Put the telemetry and sensor testing here?
Maybe a beautiful graph

UAV

Possibly the cross section of the plane?

Put a stunning 3d model of sampler here?

Conclusion
